

Getting Your Business Online is Crucial. It Shouldn't Be Complicated or Costly.

A straightforward guide to getting a professional website without the headaches.

The Common Roadblocks for Small Businesses Going Digital

Confusing Pricing & Hidden Fees

The price you're quoted is rarely the price you pay. Unexpected costs for hosting, maintenance, and features create budget chaos.

Technical Jargon Overload

You're a business owner, not an IT expert. Complex terms like SEO, CMS, and responsive design leave you feeling lost and unable to make informed decisions.

Unreliable Partners & Missed Deadlines

Agencies promise the world but deliver late, or disappear altogether, leaving your project in limbo.

Poor Quality & Bad Results

You finally get a website, but it's slow, looks unprofessional on mobile, and doesn't bring in any customers.

We Believe in a Simpler, More Honest Way.

Webolive provides easy and reliable business website design for startups and small businesses across India

Affordable • Honest • Reliable

Affordable Websites. Honest Work. Real Results.

Meet the Experience Behind Your Website

Webolive is led by Vikram Chouhan, founder of the award-winning web design agency 3i Planet. He believes every small business deserves a high-quality online presence without the high cost or complexity.

— Anjali Verma

Webolive understands business needs. Their SEO-friendly structure and long-term approach helped us build a strong online presence from day one.

— Amit Jain

Your Questions, Answered Honestly

Q: Are your websites really affordable for a small business?

A: Yes. We offer low-cost packages starting at ₹7,800 with absolutely no hidden charges.

Q: Will my website work well on mobile phones?

A: Absolutely. Every website we create is mobile-friendly and works seamlessly on mobiles, tablets, and desktops.

Q: Can my website help me get found on Google?

A: Yes. Our sites are built with an SEO-friendly structure, clean code, and fast loading speed to align with search engine best practices.

Q: Who owns the website once it's finished?

A: You do. Once the project is completed and cleared, the website and all its assets belong fully to you.
